

Dear Mr. Mohit Marshal

We are pleased to offer you the position of Cyber Security Analyst Intern at Secure Worldz.

As a 3rd Year B.Sc Computer Science student from Bishop Heber College, you have been selected based on your interest and potential in the field of cybersecurity. During your internship, you will have the opportunity to work closely with our cybersecurity team and gain practical exposure to real-world security operations.

Your responsibilities will include assisting in identifying security vulnerabilities, supporting system monitoring activities, participating in basic threat analysis, and contributing to the implementation of cybersecurity measures. You will also gain experience with security tools, risk assessment practices, and industry standards.

This internship will provide you with hands-on learning in cybersecurity, along with opportunities to enhance your analytical thinking, technical skills, and teamwork abilities.

We look forward to your contribution and hope this internship will be a valuable step in your professional journey.

Best Regards,

JAIGANESH LAKSHMANAN

Founder & CEO
